

Other People's Priorities: We all have them. It's not a matter of if but how many and how we address them. List all the possible OPP that will conflict with your project. Then for each, answer the following questions.

		Do I accept it as a valid but competing priority with my project?		
What's the Priority?	Who owns it?	If yes, how will I incorporate it into my schedule?	If not, what boundary can I establish to minimize the OPP's effect on my project?	Or can I find a way to weave that OPP into my project?
